

# A Symbol of Hope

This pink compact fluorescent light bulb is special in two ways:

Pink – the color that calls us to continue the fight against breast cancer.

Compact fluorescent light bulb – energy efficient lighting that helps reduce your energy costs and lessens your carbon footprint.

When you put this compact fluorescent bulb outside your home, the light becomes a symbol of hope. Hope for the women who are fighting breast cancer. Hope for future generations that are cancer free and environmentally healthy.

**Buy these pink compact fluorescent light bulbs at cost (\$7.00) at the UCAN office at 280 Kenneth Ford Drive in Roseburg. Or, you can mail in the form below with your check and make arrangements to pick them up. For more information, call UCAN at 541-672-3421. You can be a symbol of hope and support.**

The following organizations have joined together to raise breast cancer awareness and promote energy efficiency:

United Community Action Network (UCAN), Umpqua Community Health Center, American Cancer Society, Community Cancer Center, Douglas County Global Warming Coalition, Mercy Medical Center and Wicker Works.
